CONTINUED FOCUS ON COST REDUCTION

• Focus on cost reductions and continuous improvement resulting in lower cost of sales at three of our sites

CHIRANO, GHANA
• Production cost of sales per ounce down 16% from Q4 2013
• Cost reduction reflects the benefits of transition to self-perform mining

TASIAST, MAURITANIA
• Production cost of sales per ounce down 9% from Q4 2013
• Infrastructure improvements resulting in increased productivity and cost efficiencies

MARICUNGA, CHILE
• Production cost of sales per ounce down 14% from Q4 2013
• Increased operating efficiencies, better equipment availabilities and recoveries
TASIAST, MAURITANIA

FEASIBILITY STUDY ON MILL EXPANSION COMPLETE

• Feasibility study based on 38,000 tpd mill produced promising results
• A mill expansion has the potential to:
  ▪ Add a major source of new production to Kinross’ portfolio
  ▪ Lower the company’s overall cost structure
  ▪ Generate significant cash flow
• Do not expect to make a final construction decision until 2015 at the earliest
• Proceeding with near-term project enhancements in the interim

THE WAY FORWARD
PRINCIPLES FOR BUILDING VALUE

• Focus on operational excellence
• Quality over quantity
• Disciplined capital allocation
• Maintaining a strong balance sheet
1) Unless otherwise noted, gold equivalent production, gold equivalent ounces sold and production cost of sales figures in this presentation are based on Kinross’ 90% share of Chirano production.

2) Attributable production cost of sales per gold equivalent ounce sold is a non-GAAP measure. For more information and a reconciliation of this non-GAAP measure for the three months ended March 31, 2014 and 2013, please refer to the news release dated May 7, 2014, under the heading “Reconciliation of non-GAAP financial measures”, available on our website at www.kinross.com.

3) All-in sustaining cost is a non-GAAP measure. For more information and a reconciliation of this non-GAAP measure for the three months ended March 31, 2014 and 2013, please refer to the news release dated May 7, 2014, under the heading “Reconciliation of non-GAAP financial measures”, available on our website at www.kinross.com.

4) Adjusted net earnings attributable to common shareholders and adjusted operating cash flow numbers are from continuing operations and are non-GAAP financial measures. For more information and a reconciliation of these non-GAAP measures for the three months ended March 31, 2014 and 2013, please refer to the news release dated May 7, 2014, under the heading “Reconciliation of non-GAAP financial measures”, available on our website at www.kinross.com.

5) For more information regarding Kinross’ production, cost and capital expenditures outlook for 2014, please refer to the news release dated February 12, 2014, available on our website at www.kinross.com. Kinross’ outlook for 2014 represents forward-looking information and users are cautioned that actual results may vary. Please refer to the risks and assumptions contained in the Cautionary Statement on Forward-Looking Information on slide 2 of this presentation.
