THE WAY FORWARD
PRINCIPLES FOR BUILDING VALUE

Track record of delivering on four strategic priorities strongly positions Kinross in a volatile gold price environment

Operational excellence
- 9 consecutive quarters of strong operating results
- Robust continuous improvement initiatives resulting in better production and lower costs

Quality over quantity
- Prioritizing margins and cash flow across the business
  - e.g. Maintaining $1,200 gold price and fully-loaded costing methodology for mineral reserves
  - e.g. Suspended high cost production at La Coipa at the end of 2013

Disciplined capital allocation
- Significant reductions to capital expenditures since 2012
- Lowered 2014E(2) guidance for capital expenditures: $630 to $650 million

Balance sheet strength
- Liquidity position: $2.4 billion at September 30, 2014
- Strengthened balance sheet in first 9 months of the year: added $100M of cash and repaid $60M of debt

MAINTAINING BALANCE SHEET STRENGTH
OVERRIDING FACTOR IN INVESTMENT DECISION

Other considerations include:

- Financing plan: expect to fund the project through a combination of project financing, existing cash and operating cash flow
  - Project financing discussions continue with potential multi-lateral lenders
  - Considering funding in the range of $700-$750M of the expected $1.6B initial capital expenditure\(^{(5)}\)
- Gold price outlook and impact on cash flow generation are important factors in making a decision
