Statements representing management’s financial and other outlook have been prepared solely for purposes of expressing their current views regarding the Company’s financial and other outlook and may not be appropriate for any other purpose. Many of these uncertainties and contingencies can affect, and could cause, Kinross’ actual results to differ materially from those expressed or implied in any forward looking statements made by, or on behalf of, Kinross. There can be no assurance that forward looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. All of the forward looking statements made in this presentation are qualified by these cautionary statements, and those made in our filings with the securities regulators of Canada and the U.S., including but not limited to those cautionary statements made in the “Risk Factors” section of our most recently filed Annual Information Form, the “Risk Analysis” section of our FYE 2017 and Q1 2018 Management’s Discussion and Analysis, and the “Cautionary Statement on Forward-Looking Information” in our news release dated May 8, 2018, to which readers are referred and which are incorporated by reference in this presentation, all of which qualify any and all forward-looking statements made in this presentation. These factors are not intended to represent a complete list of the factors that could affect Kinross. Kinross disclaims any intention or obligation to update or revise any forward-looking statements or to explain any material difference between subsequent actual events and such forward-looking statements, except to the extent required by applicable law.

Other information

Where we say "we", "us", "our", the "Company", or "Kinross" in this presentation, we mean Kinross Gold Corporation and/or one or more or all of its subsidiaries, as may be applicable.

The technical information about the Company’s mineral properties contained in this presentation has been prepared under the supervision of Mr. John Sims, an officer of the Company who is a “qualified person” within the meaning of National Instrument 43-101.
Strong Operating Results

Continued track record of meeting or outperforming our operational targets

• Strong production and excellent cost performance across portfolio

• Achieved lowest all-in sustaining cost since Kinross began reporting the metric in 2012

• Firmly on track to meet 2018 guidance targets

Advancing Our Projects

Portfolio of development projects and future opportunities progressing well

- **Tasiast Phase One**
  - Nearing completion
  - On budget and on schedule to reach 12,000 t/d by end of June

- **Round Mountain Phase W**
  - Engineering ~90% complete
  - Stripping progressing on schedule

- **Bald Mountain Vantage Complex**
  - Engineering ~90% complete
  - Earthworks are well underway

- **Russia Satellite Deposits**
  - Expect to begin mining at Moroshka in H2/18
  - Commenced mine development at Dvoinoye Zone 1

- **Fort Knox Gilmore**
  - Feasibility study progressing well
  - Expect to share results in mid-June

- **La Coipa Restart**
  - Advanced permitting; remaining sectoral permits expected in H2/18
  - Expect to initiate feasibility study at mid-year
Strong Balance Sheet & Financial Flexibility

With strong cash flow and no debt maturities until 2021, we have the financial strength and flexibility to fund our pipeline of development projects.

Fuel & Currency Hedges

Managing exposure to fluctuations in foreign currency and input commodity prices

• Overall 2018 FX exposures ~36% hedged at favourable rates compared to current spot prices

• Continue to monitor our FX and oil exposures and look for opportunities to establish additional input cost hedges if market conditions are favourable

Summary of 2018 foreign currency and energy hedges as at March 31, 2018

(i) As a result of pre-paid fuel purchases mainly relating the Company’s Russian operations and fixed pricing in Ghana and Brazil, Kinross’ unhedged, free-floating oil & fuel exposure for 2018 is ~33% of total consumption.
Solid Financial Position

Strong position to finance organic development projects with existing cash and liquidity

Maintaining Financial Flexibility

- Cash and cash equivalents of ~$1.0 billion
- Available credit: $1.6 billion
- Trailing net debt to EBITDA: 0.6x
- Manageable debt schedule with no significant maturities prior to 2021
- S&P upgraded credit rating to investment grade, citing Kinross’ track record of maintaining low leverage

Figures on this slide are as at March 31, 2018.
Operating Results

We remain focused on operational excellence, building a culture of continuous improvement, innovation and disciplined cost management.
Americas

60% of estimated 2018 gold equivalent production from mines located in the Americas

Q1 Results Highlights:

- **Fort Knox** production in-line with expectations, while cost of sales ($/oz.) declined by 15% quarter-over-quarter

- Continued strong results at **Bald Mountain** as production and costs benefitted from high number of ounces stacked in 2017

- Strong production at **Paracatu**
  - Year-to-date rainfall has been stronger compared with previous years
  - Mitigation efforts ahead of schedule

West Africa

First quarter production and costs in-line with our expectations

Q1 Results Highlights:

- **Tasiast** production in-line with expectations
- Budgeted 7-day mill shutdown to tie-in Phase One infrastructure
- Ramp up of mining rate to 100Mtpa is proceeding on plan
- **Chirano** continues to perform well
- Strong mining and processing rates, and recoveries

Development Projects

We have a portfolio of development projects that are progressing, as well as a pipeline of future opportunities that we are focused on advancing.
Tasiast Phase One

On track to achieve throughput of 12,000 t/d by end of June 2018

- Successfully commissioned:
  - Tailings storage facility
  - Upgrades to power supply system
  - Several ancillary systems
- Advanced stages of commissioning the new primary crusher
- Commissioning of the new CIL plant components is proceeding well
- SAG mill is 97% complete
  - Expect to utilize a by-pass circuit to achieve 12,000 t/d while SAG is commissioning
- Tasiast is on track to meet 2018 production estimates as contemplated in the feasibility study
Tasiast Phase One Nearing Completion

- Primary crusher & conveyor
- Cyclone tower
- Conveyor & pebble crusher
- CIL plant
Round Mountain Phase W

Phase W construction expected to be complete in Q2 2019

- Detailed engineering now 90% complete
- Commenced grading of new heap leach area and earthworks in the new infrastructure area
- Commissioned 2 new electric rope shovels
- Stripping progressing well
Bald Mountain Vantage Complex

Construction of a new heap leach facility and related infrastructure to develop Vantage Complex in the South Area of Bald Mountain

- Engineering approximately 90% complete
- Earthworks are well underway
- Majority of procurement packages and construction contracts have been awarded and all major permits are now in place
- Commissioning of the heap leach pad and processing facilities is expected to commence in Q1 2019
La Coipa Restart Project

We are evaluating the potential for a return to long-term production in Chile

La Coipa Restart Project

• Expect to initiate a feasibility study in mid-year
• Permitting progressing
  ▪ Remaining two sectoral permits expected in H2 2018

Lobo Marte Project

• Located 80km from La Coipa
• Measured & indicated gold resource estimate: 7Moz.\(^{(4)}\)
• Initiating scoping study to assess potential for a production start at the end of the La Coipa Restart’s mine life

\(^{(4)}\) Refer to endnote #4.
Tasiast Update

We are assessing the Government of Mauritania’s request to enter into mutually beneficial discussions respecting all of Kinross’ activities in Mauritania, with a view to improving economic benefits to the country, including the potential impact on Phase Two development

• We have operated successfully with good government support for the past 8 years

• We have developed an excellent Mauritanian work force

• Tasiast Phase One is nearing completion, and is on schedule to ramp up to 12,000 t/d by the end of June

• Our balance sheet is even stronger today than when we started construction on Phase One
First Quarter Results

Kinross Today

• Diverse portfolio of 8 operating mines in 5 countries delivering solid, consistent results
  ▪ Delivered strong Q1 production and cost performance; on track to meet 2018 guidance targets
• Balance sheet strength and financial flexibility to invest in our future
  ▪ $2.6B in liquidity, including ~$1.0B of cash
• Development pipeline and additional future opportunities continuing to advance
Endnotes

1) For more information regarding Kinross’ production, cost, overhead expense and capital expenditures outlook for 2018, please refer to the news releases dated February 14, 2018 and May 8, 2018, both of which are available on our website at www.kinross.com. Kinross’ outlook for 2018 represents forward-looking information and users are cautioned that actual results may vary. Please refer to the Cautionary Statement on Forward-Looking Information on slide 2 of this presentation and in our news release dated May 8, 2018, available on our website at www.kinross.com.

2) Unless otherwise noted, gold equivalent production, gold equivalent ounces sold and production cost of sales figures in this presentation are based on Kinross’ 90% share of Chirano production and sales.

3) Attributable production cost of sales per gold equivalent ounce sold and per gold ounce sold on a by-product basis, all-in sustaining cost per gold equivalent ounce sold and per gold ounce sold on a by-product basis, adjusted net earnings attributable to common shareholders, and adjusted operating cash flow numbers are non-GAAP financial measures. For more information and reconciliations of these non-GAAP measures for the three months ended March 31, 2018, please refer to the news release dated May 8, 2018, under the heading “Reconciliation of non-GAAP financial measures,” available on our website at www.kinross.com.

4) Mineral reserves and mineral resources are estimates. For more information regarding Kinross’ 2017 mineral reserve and mineral resource estimates, please refer to our Annual Mineral Reserve and Mineral Resource Statement as at December 31, 2017 contained in our news release dated February 14, 2018, which is available on our website at www.kinross.com.
