Corporate Governance Guidelines

I. Introduction

The Board of Directors (the "Board") of the Company has developed and adopted the following Corporate Governance Guidelines (the "Guidelines") to provide a framework for the Board and its committees and promote expectations of director and Board performance.

II. Director Qualifications

The Board, in conjunction with the Corporate Governance & Nominating Committee (the "CGNC"), shall select candidates for nomination to the Board considering the current Board's composition and Company policies, including its Diversity Policy. The CGNC will consider the current slate of directors assessing the Board's skills, knowledge, expertise and diversity. While all directors should possess a broad base of knowledge and skills in business, the Board targets a broad range of perspectives, experience, expertise and diversity in its directors.

III. Size of the Board

According to the Company's articles and by-laws we must elect between 3 and 20 directors at each annual meeting to serve for a one-year term or until a successor is elected or appointed. The by-laws grant the authority to the Board to determine annually the appropriate size of the Board.

IV. Director Independence

The majority of the Board shall consist of independent directors. The Board considers a director to be independent if he or she has no direct or indirect material relationship that the Board believes could reasonably be perceived to materially interfere with the exercise of independent judgment in accordance with Canadian Securities Administrators National Instrument 58-101 and the independence requirements of the Toronto and New York stock exchanges where the Company's shares are currently traded.

The Board will carefully consider all relevant information when determining independence status.

V. Term Limits

The Board does not believe the overall length of service an individual serves as a director should be mandated. Directors who have served on the Board for an extended period can provide valuable insight into the operations and future of the Company due to their experience with and knowledge of the Company's history, policies and objectives.

The Board believes that, as an alternative to term limits, assurance that the Board continues to evolve and adopt new perspectives can be gained through the evaluation and nominating process described in these Guidelines and our Diversity Policy. If an independent director is nominated to serve beyond 10 years, the Board will undertake a formal review to evaluate that director's continued independence as defined under the applicable Toronto and New York Stock exchanges criteria, and consider other relevant facts and circumstances. The independence determination will be disclosed in the Company's proxy circular.

VI. Selection of New Directors

The Board shall be responsible for the selection of nominees for election or appointment to the Board from a list of nominees provided by the CGNC. Such nominees must meet the qualifications set out in the Corporate Governance Guidelines and our Diversity Policy. The CGNC will consider recommendations appropriately submitted by shareholders. All recommendations must be submitted in writing to the Company c/o the Corporate Secretary and are subject to the terms of the Company's By-laws for Advance Notice of Director Nominations. The CGNC is responsible for evaluating the nominees and conducting interviews to identify suitable candidates. The Board may fill vacancies for existing or new director positions. Directors appointed by the Board to fill a vacancy in the middle of a term carry out the remainder of the term and stand for election at the next annual meeting of shareholders.

VII. Selection of Chair

The Chair of the Board (the "Chair") is selected from the independent directors and appointed annually by the Board at the recommendation of the CGNC.

VIII. Retirement Age

Unless otherwise granted special permission by the CGNC, directors shall retire from the Board at the end of the term in which they turn 73 years of age. Such permission and the reasons behind the service extension will be disclosed in the Company's shareholder proxy circular.

IX. Resignation or Refusal to Stand for Re-Election

Directors who intend to resign or not stand for re-election at Eldorado's shareholder meeting are required to notify the Board prior to the publication of the shareholder proxy circular. The director shall offer a letter of resignation to the Board for approval. Early notice provides the Board the ability to follow proper notification standards and allows the CGNC time to evaluate the composition and qualifications of the Board and to search for appropriate candidate nominees.

X. Director Service on Other Boards

A director must submit notification to the Chair of the Board and the Chair of the CGNC prior to joining another board. The CGNC and the Board will make an assessment to determine whether a conflict of interest exists and the director is notified of the assessment results.

Without written approval from the Chair:

- i) no director may serve on more than four public company boards (including the Company's Board) and no member of the audit committee may serve on more than three public company audit committees (including the Company's audit committee); and
- ii) no director who serves in the position of Chief Executive Officer (the "CEO"), or an equivalent position, at a public company may serve on more than two public company boards (including the board of the company where they serve as CEO).

Any audit committee member's service on over three public company audit committees will be subject to the Board's determination and written approval that the member is able to effectively serve on the Company's audit committee. This determination will be disclosed in the Company's shareholder proxy circular.

The CGNC and the Board will consider the nature of and time involved in a director's service on other non-public company boards or other organizations when evaluating the suitability of nominee directors and making recommendations to Company shareholders for election.

Interlocking Boards

No two directors shall sit together on two or more public company boards without written approval from the Chair.

If such a situation does exist on the Board, the CGNC shall annually review the continued appropriateness of the situation and make a recommendation to the Board.

XI. Director Education

Onboarding

Upon election to the Board, all new directors are required to participate in an orientation program aimed at familiarizing new directors with the Company's management, industry, strategic plans, significant risk management issues, and financial standing. The program may include presentations from senior management and visits to key offices and facilities. At the conclusion of the orientation period, Directors are expected to be able to make substantial contributions and insights to the Board.

Continuing Education

Directors are required to obtain an Accredited Director standing and to participate in continuing education throughout their tenure as a director. Management may prepare educational programs for directors on relevant Company and industry matters for presentation at Board meetings. Additional educational programs may be necessary for committee members. It is expected that directors attend at least one educational program each year. Directors may attend continuing education programs to assist them to perform their duties. The Board will reimburse directors for reasonable expenses incurred in connection with these education programs upon written approval from the Chair.

The Chair of each committee is determined by the members of the committee at the first meeting of the newly appointed committee members. The CGNC will review committee membership annually and make recommendations for rotation as appropriate.

The Compensation Committee conducts the performance review to evaluate the CEO's performance with respect to the Company's business goals and guidance. The Chair of the Compensation Committee will discuss the evaluation following its completion with the CEO.

XIX. Share Ownership Requirements

The Board has determined that all directors will, consistent with their responsibilities to the Company and its stakeholders, hold an equity interest in the Company to further align their interests with the Company. Within 5 years of joining the Board or January 1, 2023 (whichever date is later), each independent director should acquire, and continue to hold during his or her tenure on the Board, equity in the Company equal to three times their annual director retainer. We measure this equity shareholding as the higher of value at issue date or fair market value on January 31 of each year. For the purposes of this calculation, Company equity includes common shares and deferred units.

The CEO is required to own three times his annual base salary in Eldorado equity. All other executive officers are required to hold two times their annual base salary in Eldorado equity. Equity ownership must be achieved within five years of appointment as an executive officer. We measure the value of the equity holdings at the higher of the value at issue date or fair market value on January 31st of each year. For the purposes of this calculation, Eldorado equity includes common shares and vested and unvested restricted share units.

XX. Board Compensation

The Board will determine, based upon the recommendation of the Compensation Committee, the compensation and reimbursement policy for independent directors. The Compensation Committee will review the form and amount of director compensation annually and recommend any changes to the Board.

XXI. Board Access to Employees/Senior Management/Independent Advisors

The Board has complete access to Eldorado's employees and senior management. Directors are encouraged to address their questions to management in a manner that does not interfere with the Company's daily operations. Senior management may attend board meetings at the invitation of the CEO as a resource for the Board. The Board will enable opportunities for senior management and directors to meet in formal and informal settings.

The Board Terms of Reference allow the Board or a committee of the board or an individual director to engage outside advisors if they believe it is necessary to carry out their responsibilities. Costs of advisor services are approved by the Chair of the Board or the Committee Chair, as appropriate, and paid by the Company.

XXII. Communication with Shareholders and Other Stakeholders and External Parties

The Board believes it is the responsibility of senior management to speak on behalf of the Company to shareholders, media, and other stakeholders and external parties. At the same time, the Board believes it is important for the Chair and other independent directors, as appropriate, to engage directly with the Company's shareholders on a regular basis, and at least annually. Approval of waivers of the Code for directors and executive officers may be determined only by those members of the Board not subject to the possible waiver. Such waivers must be publicly disclosed.
