

ARC Mobile Facilities Dashboard Wins 2018 Campus Safety BEST Award

10/23/2018

Campus Safety Magazine Recognizes "ARC Emergency" for Excellence in Facility and Emergency Response Management

SAN RAMON, CA / ACCESSWIRE / October 23, 2018 / Campus Safety Magazine has awarded ARC Document Solutions (NYSE: ARC) with a Campus Safety BEST Award for its **ARC Emergency mobile facilities dashboard** in the category of Incident Management and Response for Incident and Records Management Software.

ARC Emergency is one of four mobile facilities dashboards that help facilities teams improve operations, emergency responsiveness, as well as safety and security at hospitals, schools and universities.

ARC Emergency won this award based on features including the ability to instantly update and share facility information with first responders and co-workers, distribute safety and emergency response policies, and validate training - all vital for effective emergency preparation. From floods and fires to active threat situations, ARC Emergency empowers facility and emergency managers with information management for emergencies.

"We are honored to receive an award that recognizes our technology solutions for excellence in providing facility and emergency teams with instant access to information that minimizes damage to buildings and keep occupants safe," said Brian Bailard, ARC executive vice president.

Powered by the ARC Facilities Platform technology, ARC Emergency provides facility and emergency management teams with anytime, anywhere access on any mobile or desktop device to emergency plans and crucial building information that can be shared with first responders to accelerate containment of emergency situations.

"Campus Safety magazine takes pride in focusing on content that helps protection professionals in the healthcare and education markets keep their students, teachers, patients, visitors, and campuses safe and secure," stated Robin Hattersley Gray, executive editor of Campus Safety.

In January 2018 Facility Executive Magazine readers voted ARC as the Best Facility Software of 2018 within its annual People's Choice Award.
