## JELD-WEN Earns 2024 ENERGY STAR® Partner of the Year

3/26/2024

CHARLOTTE, N.C., March 26, 2024 /PRNewswire/ -- Today, JELD-WEN was named 2024 ENERGY STAR Partner of the Year by the U.S. Environmental Protection Agency. This award, the highest level of EPA recognition, spotlights JELD-WEN's leadership in energy management and actively engaging in the fight against climate change.

"Energy efficiency is a key element in JELD-WEN's efforts to build a sustainable future for everyone," said Jason Kantola, JELD-WEN North America leader of sustainability and certifications. "Our North America team continues to exceed new levels of performance for energy efficiency – not only ensuring lower energy costs for homeowners, but also helping our planet. We are grateful to be recognized and named an ENERGY STAR Partner of the Year."

The ENERGY STAR Partner of the Year Award recognizes organizations advancing energy efficiency and contributing to the transition to a clean energy economy. Honored among a diverse group of entities, including Fortune 500 companies, retailers and more, JELD-WEN stands out for its innovative approach to the production and promotion of energy-efficient building solutions.

With a robust portfolio of ENERGY STAR certified windows and doors, JELD-WEN has created and implemented processes for more meaningful energy management. The company sources local materials, whenever possible, to reduce its carbon footprint and support local economies. JELD-WEN uses recycled materials in many of its products and is a recognized leader in reducing volatile organic compound (VOC) emissions.

Additionally, JELD-WEN has been instrumental in training and educating stakeholders across the board, from employees to customers, about the importance of energy efficiency and the benefits of ENERGY STAR-certified products. This commitment to spreading awareness about the ENERGY STAR program has significantly contributed

to our overall sustainability efforts and played a key role in earning the ENERGY STAR Partner of the Year Award.

As of 2024, the efforts of ENERGY STAR award winners have cumulatively saved over 5 trillion kilowatt-hours of electricity, significantly impacting the global energy transition.
