

Navistar Reports Third Quarter 2019 Results

September 4, 2019

- Reports net income of \$156 million, or \$1.56 per diluted share, on revenues of \$3 billion
- Generates \$266 million of adjusted EBITDA in the quarter; \$147 million of adjusted net income
- Achieves 2.6 share point growth in Core market share, reflecting higher share in all vehicle segments year-over-year
- Records \$250 million of manufacturing free cash flow for the quarter

LISLE, Ill., Sept. 4, 2019 /PRNewswire/ -- Navistar International Corporation (NYSE: NAV) today announced third quarter 2019 net income of \$156 million, or \$1.56 per diluted share, compared to third quarter 2018 net income of \$170 million, or \$1.71 per diluted share.

Third quarter 2019 adjusted EBITDA was \$266 million, compared to \$218 million in the same period one year ago. Adjusted net income in the quarter grew 55 percent to \$147 million, compared to \$95 million last year.

Revenues in the quarter were \$3 billion, up 17 percent from the same period one year ago, primarily due to a 28 percent increase in volumes in the company's Core market (Class 6-8 trucks and buses in the United States and Canada).

"This was another great quarter for Navistar," said Troy A. Clarke, Navistar chairman, president and chief executive officer. "Market share increased, revenues and earnings grew at double-digit rates, and we made significant investments in our operations and our Uptime promise."

Navistar ended third quarter 2019 with \$1.16 billion in consolidated cash, cash equivalents and marketable securities. Manufacturing cash, cash equivalents and marketable securities were \$1.11 billion at the end of the quarter. The company generated \$250 million of manufacturing free cash flow during the quarter largely due to strong adjusted EBITDA and net working capital performance.

The company had a number of uptime-related highlights during its third quarter. Navistar's warranty performance and service partnership agreement with Love's and Speedco, initially announced in March, is now fully operational, activating the commercial vehicle industry's largest service network in North America. Additionally, the company's latest parts distribution center (PDC) opened late last month near Memphis to help cater to the growing demand for parts and quicker maintenance turnaround times. Complementing the new PDC are new enhancements to Navistar's retail inventory management system, resulting in 50 percent lower emergency parts orders, further maximizing Uptime for the company's customers.

Also during the quarter, the company announced it would be making capital investments of approximately \$125 million in new and expanded manufacturing facilities at its Huntsville, Ala. plant to produce next-generation big-bore powertrains developed with its global alliance partner TRATON.

INDUSTRY AND FINANCIAL GUIDANCE

The company updated the following 2019 full-year industry and financial guidance:

- Industry retail deliveries of Class 6-8 trucks and buses in the United States and Canada are forecast to be 435,000 to 455,000 units, with Class 8 retail deliveries of 295,000 to 315,000 units.
- Gross margin is expected to be in the range of 17.75% and 18%.
- Core market share is forecast to be between 18.5% and 19%.

The company reaffirmed the following 2019 full-year financial guidance:

- Navistar revenues are expected to be between \$11.25 billion and \$11.75 billion.
- The company's adjusted EBITDA is expected to be between \$875 million and \$925 million.

Additionally, the company forecasts the industry's 2020 retail deliveries of Class 6-8 trucks and buses in the United States and Canada to be in the range of 335,000 to 365,000 units, with Class 8 retail deliveries between 210,000 and 240,000 units.

"We are on course for a strong end to 2019, and we're not standing still," Clarke said. "The company is recapturing market share and is growing revenue, EBITDA and cash flow. We remain focused on setting ourselves up for long-term success."

SEGMENT REVIEW

Segment Results:				
Truck	\$ 167	\$ 165	\$ 183	\$ 200
Parts	149	144	437	413

Global Operations	1	4	10	(2)
Financial Services	30	23	93	62
Net income ^(A)	156	170	119	152
Diluted income per share ^(A)	1.56	1.71	1.20	1.53

(A) Amounts attributable to Navistar International Corporation.

Truck Segment — Truck segment net sales increased 25 percent to \$2.4 billion compared to third quarter 2018. The increase is primarily due to higher volumes in the company's Core markets, an increase in both Mexico sales and sales of Class 4-5 trucks manufactured for GM, partially offset by the impact of the sale of a majority interest in Navistar Defense.

For third quarter 2019, the Truck segment recorded a profit of \$167 million, up \$2 million compared to the same period one year ago. The increase was primarily driven by the impact of higher volumes in the company's Core markets and the release of a liability recognized in a prior quarter related to certain legacy engine litigation, offset by a prior year settlement gain relating to a business economic claim. Excluding these two one-time items, the segment profit was up \$41 million year-over-year.

Parts Segment — Parts segment net sales decreased six percent to \$571 million, compared to third quarter 2018, primarily due to the impact of a new revenue standard and lower Blue Diamond Parts (BDP) sales, offset by higher sales in the company's North American markets.

For third quarter 2019, the Parts segment recorded a profit of \$149 million, up three percent compared to third quarter 2018, primarily due to higher U.S. margins and lower intercompany access fees, partially offset by lower BDP volumes.

Global Operations Segment — Global Operations net sales for the quarter were \$90 million, comparable to the same period one year ago.

For third quarter 2019, the Global Operations segment profit was \$1 million, down \$3 million compared to third quarter 2018, primarily driven by the impact of a shift in product mix.

Financial Services Segment — Financial Services net revenues increased 14 percent to \$74 million compared to third quarter 2018, primarily due to higher average portfolio balances in the U.S. and Mexico.

For third quarter 2019, the Financial Services segment recorded a profit of \$30 million, up 30 percent compared to third quarter 2018. The increase was primarily driven by higher interest margins and higher other income from an intercompany loan, partially offset by the write-off of debt issuance costs.

About Navistar

Navistar International Corporation (NYSE: NAV) is a holding company whose subsidiaries and affiliates produce International[®] brand commercial trucks, proprietary diesel engines, and IC Bus[®] brand school and commercial buses. An affiliate also provides truck and diesel engine service parts. Another affiliate offers financing services. Additional information is available at www.Navistar.com.

Forward-Looking Statement

Information provided and statements contained in this report that are not purely historical are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended ("Securities Act"), Section 21E of the Securities Exchange Act of 1934, as amended ("Exchange Act"), and the Private Securities Litigation Reform Act of 1995. Such forward-looking statements only speak as of the date of this report and the company assumes no obligation to update the information included in this report. Such forward-looking statements include information concerning our possible or assumed future results of operations, including descriptions of our business strategy. These statements often include words such as believe, expect, anticipate, intend, plan, estimate, or similar expressions. These statements are not guarantees of performance or results and they involve risks, uncertainties, and assumptions. For a further description of these factors, see the risk factors set forth in our filings with the Securities and Exchange Commission, including our annual report on Form 10-K for the fiscal year ended October 31, 2018, which was filed on December 18, 2018. Although we believe that these forward-looking statements are based on reasonable assumptions, there are many factors that could affect our actual financial results or results of operations and could cause actual results to differ materially from those in the forward-looking statements. All future written and oral forward-looking statements by us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements contained or referred to above. Except for our ongoing obligations to disclose material information as required by the federal securities laws, we do not have any obligations or intention to release publicly any revisions to any forward-looking statements to reflect events or circumstances in the future or to reflect the occurrence of unanticipated events.

SEC Regulation G Non-GAAP Reconciliation:

The financial measures presented below are unaudited and not in accordance with, or an alternative for, financial measures presented in accordance with U.S. generally accepted accounting principles ("GAAP"). The non-GAAP financial information presented herein should be considered supplemental to, and not as a substitute for, or superior to, financial measures calculated in accordance with GAAP and are reconciled to the most appropriate GAAP number below.

Earnings (loss) Before Interest, Income Taxes, Depreciation, and Amortization ("EBITDA"):

We define EBITDA as our consolidated net income (loss) attributable to Navistar International Corporation, plus manufacturing interest expense, income taxes, and depreciation and amortization. We believe EBITDA provides meaningful information to the performance of our business and therefore we use it to supplement our GAAP reporting. We have chosen to provide this supplemental information to investors, analysts and other interested parties to enable them to perform additional analyses of operating results.

Adjusted EBITDA and Adjusted Net Income (loss) attributable to NIC:

We believe that adjusted EBITDA and adjusted Net Income (loss) attributable to NIC, which excludes certain identified items that we do not consider to be part of our ongoing business, improves the comparability of year to year results, and is representative of our underlying performance. Management uses this information to assess and measure the performance of our operating segments. We have chosen to provide this supplemental information to investors, analysts and other interested parties to enable them to perform additional analyses of operating results, to illustrate the results of operations giving effect to the non-GAAP adjustments shown in the below reconciliations, and to provide an additional measure of performance.

Manufacturing Cash, Cash Equivalents, and Marketable Securities:

Manufacturing cash, cash equivalents, and marketable securities represent the Company's consolidated cash, cash equivalents, and marketable securities excluding cash, cash equivalents, and marketable securities of our financial services operations. We include marketable securities with our cash and cash equivalents when assessing our liquidity position as our investments are highly liquid in nature. We have chosen to provide this supplemental information to investors, analysts and other interested parties to enable them to perform additional analyses of our ability to meet our operating requirements, capital expenditures, equity investments, and financial obligations.

Structural costs consist of Selling, general and administrative expenses and Engineering and product development costs.

Manufacturing free cash flow consists of Net cash from operating activities and Capital Expenditures, all from our Manufacturing operations.

EBITDA reconciliation:

(in millions)	Three Months Ended		Nine Months Ended	
	July 31,		July 31,	
	2019	2018	2019	2018
Net income attributable to NIC	\$ 156	\$ 170	\$ 119	\$ 152
Plus:				
Depreciation and amortization expense	47	51	144	160

Adjusted Net income attributable to NIC	\$ 147	\$ 95	\$ 309	\$ 138

- (A) Adjustments to pre-existing warranties reflect changes in our estimate of warranty costs for products sold in prior periods. Such adjustments typically occur when claims experience deviates from historic and expected trends. Our warranty liability is generally affected by component failure rates, repair costs, and the timing of failures. Future events and circumstances related to these factors could materially change our estimates and require adjustments to our liability. In addition, new product launches require a greater use of judgment in developing estimates until historical experience becomes available.
- (B) In the third quarter and first nine months of 2019, we recorded \$3 million and \$6 million, respectively, of asset impairment charges relating to certain assets under operating leases in our Truck segment. In the third quarter and first nine months of 2018, we recorded \$8 million and \$11 million, respectively, of asset impairment charges related to the sale of our railcar business in Cherokee, Alabama and certain assets under operating leases in our Truck segment.
- (C) In the third quarter and first nine months of 2019, we recorded a restructuring charge of zero and \$1 million, respectively, in our Truck segment. In the third quarter and first nine months of 2018, we recorded a charge of \$1 million and a benefit of \$1 million, respectively, related to adjustments for restructuring in our Truck, Global Operations and Corporate segments.
- (D) In the third quarter and first nine months of 2019, we recognized a net benefit of \$31 million related to the MaxxForce engine EGR product litigation recorded during the third quarter of 2017 and a charge of \$128 million related to MaxxForce Advanced EGR engine class action settlement and related litigation in our Truck segment. In the nine months ended July 31, 2018, we recognized a charge of \$1 million for a jury verdict related to one of the MaxxForce Advanced EGR engine lawsuits in our Truck segment.
- (E) In three months ended July 31, 2019, we recognized a charge of \$3 million in our Truck segment for adjustments to the purchase price of the sale of a majority interest in the Navistar Defense business. In the first nine months of 2019, we recognized a gain of \$51 million related to the sale of a majority interest in the Navistar Defense business in our Truck segment, and a gain of \$5 million related to the sale of our joint venture in China with JAC in our Global Operations segment.
- (F) In the third quarter and first nine months of 2019, we recorded a charge of \$6 million for the write off of debt issuance costs and discounts associated with NFC Term Loan. In the first nine months of 2018, we recorded a charge of \$46 million for the write off of debt issuance costs and discounts associated with the repurchase of our previously existing 8.25% Senior Notes and the refinancing of our previously existing Term Loan in Corporate.
- (G) In the first nine months of 2019 and 2018, we purchased group annuity contracts for certain retired pension plan participants resulting in plan remeasurements. As a result, we recorded pension settlement accounting charges of \$142 million and \$9 million, respectively, in *Other income, net* in Corporate.
- (H) In the third quarter and first nine months of 2019, we recorded interest income of \$1 million and \$3 million, respectively, in *Other income, net* derived from the prior year settlement of a business economic loss claim relating to our former Alabama engine manufacturing facility in Corporate.
- (I) Tax effect is calculated by excluding the impact of the non-GAAP adjustments from the interim period tax provision calculations.
