

GRUBHUB

Our mission is to connect hungry diners with great, local restaurants. From our start in 2004, we set out to create a marketplace for diners to order from local restaurants – a commitment that continues today.

Restaurants

focus on making the food people love, while we help strengthen their online presence, market their business to local diners, and handle delivery if they want freedom from managing their own drivers.

Diners

browse, order and securely pay for delivery and pickup from a wide variety of restaurants all on Grubhub.

Drivers

make their own schedules to work when they want, where they want and for how long they want. Grubhub offers competitive pay and has always ensured 100% of tips go directly to drivers.

300,000 restaurants are on Grubhub across the country

4,000+ cities in the U.S. are supported by Grubhub

30 million diners

are active on Grubhub
