14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ▶ **On June 14, 2012, the Company's Board of Directors declared a cash distribution of \$0.175 per share of common stock. This distribution was paid on July 13, 2012 to shareholders of record at the close of business on June 29, 2012.**

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ▶ **The distribution was \$0.175 per share. It is estimated that \$0.055 will be taxable as a dividend (with no effect on basis). The remaining \$0.12 per share is expected to be treated as a reduction in the tax basis or "return of capital".**

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ▶ **An estimated calculation of current and accumulated earnings and profits ("E&P") was made using the latest available information. When a distribution is made by a corporation, it is treated as a taxable dividend to the extent of E&P. Distributions in excess of E&P reduces the shareholder's tax basis.**
