Executive Summary

With a Stabilized Portfolio and Well Positioned Balance Sheet, We Continue to Execute Our External Growth Strategy

2Q'21 Update

- **Guidance and Dividend:** 2021 AFFO/sh guidance range raised to \$1.24-\$1.28 from \$1.22-\$1.26 and quarterly dividend for 2Q'21 increased 4.2% to \$0.25/sh
- **2Q'21 and Probable Investment Activity:** Completed ~\$124mm¹ of QTD investments at a 7.0% cash yield with another ~\$103mm under PSA and ~\$143mm under LOI
- **Differentiated Investment Approach:** Our closed and probable² investments are 64% sale-leaseback, 84% master leased and 97% prior relationship-based

Well Positioned Balance Sheet

- **Low Leverage:** Pro forma³ 1Q'21 Net Debt / Annualized Adjusted EBITDA⁴ was 4.1x
- **Strong Liquidity:** Pro forma³ liquidity is \$492mm, which includes \$400mm of capacity on our unsecured credit facility and \$92 million of available cash

Stable Net Lease Portfolio

- **Collection Update:**
 - **April:** Collected 98% of ABR⁴ with another 1% of recognized deferrals
 - **May:** Collected 99% of ABR⁴ with another <1% of recognized deferrals
- **Occupancy Update:** Our portfolio was 99.5% leased with only six vacant properties¹
- **De-Minimis Near-Term Expirations:** <1% and <5% of ABR expires through 2023 and 2025, respectively

1. As of June 4, 2021.

2. Probable references investments that are under PSA (including investments subject to sign and close agreements) and under LOI.

3. Pro forma adjustments have been made to reflect the impact of our April 2021 follow-on offering, which raised \$185.5 million of net proceeds.

4. Ratios are based on percentage of Cash ABR as of June 4, 2021.

Targeted Investment Strategy Based on Decades of Experience

Management's Investment Discipline Has Been Refined Over Multiple Decades of Managing Assets Through Various Credit Cycles

Service-oriented and experience-based businesses are performing well in the current economic environment and increasing store counts

Service-Oriented & Experience-Based Industries

- ✓ E-commerce resistant
- ✓ Profit centers essential to tenant's operations
- ✓ Customers must visit to receive service/experience

Small-scale net leased properties are easier to divest and re-let in comparison to larger properties

Sale-Leaseback Transactions with Middle-Market Tenants

- ✓ Longer lease term
- ✓ Unit-level financial reporting
- ✓ Include contractual rent increases

Access to growth capital for **middle-market businesses** is limited and results in attractive risk-adjusted returns

Small-Scale Net Leased Properties

- ✓ Increases diversification
- ✓ Deeper pool of potential buyers
- ✓ Greater alternative uses

Seek to be the Capital Provider of Choice

Maintain Direct Relationships with Our Tenants and Actively Seek to Leverage Our Relationships to Identify New Investment Opportunities

Tenant Relationships

Underwriting Methodology

Unit-Level Profitability

- Evaluate the profitability of the business operated at our real estate locations through rent coverage ratios and historical financials

Real Estate Valuation

- Identify whether the underlying real estate is commercially desirable and suitable for use by different tenants

Industry View

- Determine the relevant competitive factors and long-term viability of the industry, avoiding industries subject to long-term functional obsolescence

Credit of the Tenant

- Perform detailed credit reviews of the financial condition of all proposed tenants to determine their financial strength and flexibility

1. Percentage of portfolio cash ABR as of March 31, 2021 that was acquired from parties who previously engaged in one or more transaction with a senior management team member. Exclusive of Initial Portfolio.
2. Percentage of portfolio cash ABR as of March 31, 2021 that was attributable to internally originated sale-leaseback transactions. Exclusive of Initial Portfolio.

New Vintage Portfolio is Focused on Targeted Industries

Our Portfolio is the Result of a Disciplined Adherence to Investing in Properties Leased to Service-Oriented and Experience-Based Businesses with Unit-Level Reporting

- **E-Commerce Resistant:** 95% of cash ABR comes from service-oriented and experience-based tenants
- **Focus on 17 Industries:** Results in greater sector expertise and more efficient underwriting and asset management
- **Long WALT Limits Near-Term Cash Flow Erosion:** <1% and <5% of our ABR expires through 2023 and 2025, respectively
- **Highly Transparent with No Legacy Issues:** 98.2% unit-level reporting; investment program started in June 2016

Active Asset Management

Proactive Asset Management Mitigates Risk and Maximizes Risk-Adjusted Returns

Dispositions Have Traded at Attractive Cap Rates: Since our inception in 2016 through 1Q '21, we have sold 211 properties for net proceeds of \$309 million. Of those, 167 properties were leased at the time of disposition and we achieved a weighted average cash cap rate of 6.8% on these sales, and the tenants had a weighted average coverage ratio of 1.8x.

Lease Escalation Type

1. Based on cash ABR as of March 31, 2021.

2. Represents the weighted average annual escalation rate of the entire portfolio as if all escalations occur annually. For leases in which rent escalates by the greater of a stated fixed percentage or CPI, we have assumed an escalation equal to the stated fixed percentage in the lease. As any future increase in CPI is reasonably not determinable at this time, we have not included an increase in the rent pursuant to these leases in the weighted average annual escalation rate presented.

Supplemental Reporting Measures

FFO, Core FFO and AFFO

Our reported results are presented in accordance with U.S. generally accepted accounting principles ("GAAP"). We also disclose funds from operations ("FFO"), core funds from operations ("Core FFO") and adjusted funds from operations ("AFFO"), each of which is a non-GAAP financial measure. We believe these non-GAAP financial measures are industry measures used by analysts and investors to compare the operating performance of REITs.

We compute FFO in accordance with the definition adopted by the Board of Governors of the National Association of Real Estate Investment Trusts ("NAREIT"). NAREIT defines FFO as GAAP net income or loss adjusted to exclude extraordinary items (as defined by GAAP), net gain or loss from sales of depreciable real estate assets, impairment write-downs associated with depreciable real estate assets and real estate-related depreciation and amortization (excluding amortization of deferred financing costs and depreciation of non-real estate assets), including the pro rata share of such adjustments of unconsolidated subsidiaries. FFO is used by management, and may be useful to investors and analysts, to facilitate meaningful comparisons of operating performance between periods and among our peers primarily because it excludes the effect of real estate depreciation and amortization and net gains and losses on sales (which are dependent on historical costs and implicitly assume that the value of real estate diminishes predictably over time, rather than fluctuating based on existing market conditions).

We compute Core FFO by adjusting FFO, as defined by NAREIT, to exclude certain GAAP income and expense amounts that we believe are infrequent and unusual in nature and/or not related to our core real estate operations. Exclusion of these items from similar FFO-type metrics is common within the equity REIT industry, and management believes that presentation of Core FFO provides investors with a metric to assist in their

evaluation of our operating performance across multiple periods and in comparison to the operating performance of our peers, because it removes the effect of unusual items that are not expected to impact our operating performance on an ongoing basis. Core FFO is used by management in evaluating the performance of our core business operations. Items included in calculating FFO that may be excluded in calculating Core FFO include items like certain transaction related gains, losses, income or expense or other non-core amounts as they occur.

To derive AFFO, we modify the NAREIT computation of FFO to include other adjustments to GAAP net income related to certain items that we believe are not indicative of our operating performance, including straight-line rental revenue, non-cash interest expense, non-cash compensation expense, other amortization and non-cash charges, capitalized interest expense and transaction costs. Such items may cause short-term fluctuations in net income but have no impact on operating cash flows or long-term operating performance. We believe that AFFO is an additional useful supplemental measure for investors to consider to assess our operating performance without the distortions created by non-cash and certain other revenues and expenses.

FFO, Core FFO and AFFO do not include all items of revenue and expense included in net income, they do not represent cash generated from operating activities, and they are not necessarily indicative of cash available to fund cash requirements; accordingly, they should not be considered alternatives to net income as a performance measure or cash flows from operations as a liquidity measure and should be considered in addition to, and not in lieu of, GAAP financial measures. Additionally, our computation of FFO, Core FFO and AFFO may differ from the methodology for calculating these metrics used by other equity REITs and, therefore, may not be comparable to similarly titled measures reported by other equity REITs.

Supplemental Reporting Measures

We also present our earnings before interest, taxes and depreciation and amortization for real estate (“EBITDA”), EBITDA further adjusted to exclude gains (or losses) on sales of depreciable property and real estate impairment losses (“EBITDAre”), net debt, net operating income (“NOI”) and cash NOI (“Cash NOI”), all of which are non-GAAP financial measures. We believe these non-GAAP financial measures are accepted industry measures used by analysts and investors to compare the operating performance of REITs.

EBITDA and EBITDAre

We compute EBITDA as earnings before interest, income taxes and depreciation and amortization. In 2017, NAREIT issued a white paper recommending that companies that report EBITDA also report EBITDAre. We compute EBITDAre in accordance with the definition adopted by NAREIT. NAREIT defines EBITDAre as EBITDA (as defined above) excluding gains (or losses) from the sales of depreciable property and real estate impairment losses. We present EBITDA and EBITDAre as they are measures commonly used in our industry and we believe that these measures are useful to investors and analysts because they provide important supplemental information concerning our operating performance, exclusive of certain non-cash and other costs. We use EBITDA and EBITDAre as measures of our operating performance and not as measures of liquidity.

EBITDA and EBITDAre do not include all items of revenue and expense included in net income, they do not represent cash generated from operating activities and they are not necessarily indicative of cash available to fund cash requirements; accordingly, they should not be considered alternatives to net income as a performance measure or cash flows from operations as a liquidity measure and should be considered in addition to, and not in lieu of, GAAP financial measures. Additionally, our computation of EBITDA and EBITDAre may differ from the methodology for calculating these metrics used by other equity REITs and, therefore,

may not be comparable to similarly titled measures reported by other equity REITs.

Net Debt

We calculate our net debt as our gross debt (defined as total debt plus net deferred financing costs on our secured borrowings) less cash and cash equivalents and restricted cash available for future investment.

We believe excluding cash and cash equivalents and restricted cash deposits held for the benefit of lenders from gross debt, all of which could be used to repay debt, provides an estimate of the net contractual amount of borrowed capital to be repaid, which we believe is a beneficial disclosure to investors and analysts.

NOI and Cash NOI

We compute NOI as total revenues less property expenses. NOI excludes all other items of expense and income included in the financial statements in calculating net income or loss. Cash NOI further excludes non-cash items included in total revenues and property expenses, such as straight-line rental revenue and other amortization and non-cash charges. We believe NOI and Cash NOI provide useful and relevant information because they reflect only those income and expense items that are incurred at the property level and present such items on an unlevered basis.

NOI and Cash NOI are not measurements of financial performance under GAAP. You should not consider our NOI and Cash NOI as alternatives to net income or cash flows from operating activities determined in accordance with GAAP. Additionally, our computation of NOI and Cash NOI may differ from the methodology for calculating these metrics used by other equity REITs and, therefore, may not be comparable to similarly titled measures reported by other equity REITs.

Supplemental Reporting Measures

Adjusted EBITDAre / Adjusted NOI / Adjusted Cash NOI

We further adjust EBITDAre, NOI and Cash NOI i) based on an estimate calculated as if all re-leasing, investment and disposition activity that took place during the quarter had been made on the first day of the quarter, ii) to exclude certain GAAP income and expense amounts that we believe are infrequent and unusual in nature and iii) to eliminate the impact of lease termination fees and contingent rental revenue from our tenants which is subject to sales thresholds specified in the lease. We then annualize these estimates for the current quarter by multiplying them by four, which we believe provides a meaningful estimate of our current run rate for all investments as of the end of the current quarter. You should not unduly rely on these measures, as they are based on assumptions and estimates that may prove to be inaccurate. Our actual reported EBITDAre, NOI and Cash NOI for future periods may be significantly less than these estimates of current run rates.

Cash ABR

Cash ABR means annualized contractually specified cash base rent in effect as of the end of the current quarter for all of our leases (including those accounted for as direct financing leases) commenced as of that date and annualized cash interest on our mortgage loans receivable as of that date.

Rent Coverage Ratio

Rent coverage ratio means the ratio of tenant-reported or, when unavailable, management's estimate based on tenant-reported financial information, annual EBITDA and cash rent attributable to the leased property (or properties, in the case of a master lease) to the annualized base rental obligation as of a specified date.

Initial Portfolio

Initial portfolio means our acquisition of a portfolio of 262 net leased properties on June 16, 2016, consisting primarily of restaurants, that were being sold as part of the liquidation of General Electric Capital Corporation for an aggregate purchase price of \$279.8 million (including transaction costs).

GAAP Cap Rate

GAAP Cap Rate means annualized rental income computed in accordance with GAAP for the first full month after investment divided by the purchase price, as applicable, for the property.

Cash Cap Rate

Cash Cap Rate means annualized contractually specified cash base rent for the first full month after investment or disposition divided by the purchase or sale price, as applicable, for the property.
