This presentation includes forward-looking statements. Wayfair Inc. (“Wayfair” or the “Company”) has based these forward-looking statements largely on its current expectations and projections about future events and financial trends affecting its business. Forward-looking statements should not be read as guarantees of future performance or results, and will not necessarily be accurate indications of the times at, or by, which such performance or results will be achieved. Forward-looking statements are based on information available at the date of this presentation and management’s good faith belief as of such date with respect to future events, and are subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in or suggested by the forward-looking statements. Important factors that could cause such differences include, but are not limited to: our ability to acquire new customers, our ability to sustain and/or manage our growth, our ability to increase our net revenue per active customer, our ability to build and maintain strong brands and other factors discussed under “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in periodic filings with the Securities and Exchange Commission (the “SEC”). In addition, in this presentation, the words “believe,” “may,” “will,” “estimate,” “continue,” “anticipate,” “intend,” “expect,” “predict,” “potential” and similar expressions, as they relate to the Company, business and management, are intended to identify forward-looking statements. In light of these risks and uncertainties, the future events and circumstances discussed in this presentation may not occur, and actual results could differ materially from those anticipated or implied in the forward-looking statements. Forward-looking statements speak only as of the date of this presentation. You should not put undue reliance on any forward-looking statement. The Company assumes no obligation to update any forward-looking statements to reflect actual results, changes in assumptions or changes in other factors affecting future performance or results, except to the extent required by applicable laws. If the Company updates one or more forward-looking statements, no inference should be drawn that it will make additional updates with respect to those or other forward-looking statements.

SCALE ENABLES ONGOING INVESTMENT IN KEY AREAS: HEADCOUNT

• ~1,450 net new FTEs added in 2015 and over 2,200 since the beginning of 2014
• These employees augment existing business areas (e.g., customer service) but also help us build new revenue streams (e.g., registry, better onsite personalization)

Note: Totals may not match regulatory filings due to rounding.

(1) The expense related to a portion of the headcount in Technology are included in capitalized technology labor and therefore this growth in headcount will not correlate directly with future growth in labor expense.
SCALE ENABLES ONGOING INVESTMENT IN KEY AREAS: PRIVATE LABEL

- Partnering with suppliers to develop proprietary brands with exclusive products and no inventory
- Products are photographed and merchandized by Wayfair to create a curated brand experience across multiple aesthetics and price points
SCALE ENABLES ONGOING INVESTMENT IN KEY AREAS: ENGINEERING

Over 450 Engineers Today

Key Engineering Priorities:
- Personalization
- Product discovery
- Desktop/Mobile feature parity
- Product globalization

- Logistics support
- Resiliency
- Tools for Trade and Premier customers

INVESTING IN ADVERTISING ACROSS MULTIPLE CHANNELS

- Three broad advertising channels - Online, TV and Direct Mail
- Online is the largest channel followed by TV and Direct Mail
- Strict adherence to channel derived ROIs

**Online**
- Display
- Social
- Transactional

**TV**

**Direct Mail**
Most 2011 and 2012 customers first purchased before site rebranding.

- Customers acquired in more recent periods consistently spend more over time than customers acquired in older periods.
- For example, in the 6th month post their initial order, 2014 customers spent more than 2x 2011 customers.
