## Yum! Brands Reports First-Quarter Results

*Taco Bell Same-Store Sales Growth 8%; KFC Unit Growth 7%;  
Record Digital System Sales Mix of 63%*

**Louisville, KY (April 29, 2026)** - Yum! Brands, Inc. (NYSE: YUM) today reported results for the first quarter ended March 31, 2026. First-quarter GAAP EPS was \$1.55 and first-quarter EPS excluding Special Items was \$1.50, a 15% increase year-over-year.

### CHRIS TURNER COMMENTS

Chris Turner, CEO, said "We delivered solid topline momentum to start the year, with our fundamentals as strong as ever. Taco Bell delivered an outstanding 8% same-store sales growth, meaningfully ahead of the QSR industry, building off a very strong Q1 same-store sales growth rate in 2025. KFC delivered impressive unit growth and resilient same-store growth, with many KFC markets growing system sales double-digits. Yum! is incredibly well positioned to sustain sales momentum thanks to strong global consumer appeal for our brands, long-term consumption tailwinds, and our tech and AI capabilities."

- Unit count increased 5% including 1,030 gross new units in the quarter.

**Reconciliation of Non-GAAP Measurements to GAAP Results**  
**(amounts in millions, except per share amounts)**  
**(unaudited)**

In addition to the results provided in accordance with Generally Accepted Accounting Principles in the United States of America ("GAAP"), the Company provides the following non-GAAP measurements.

- Diluted Earnings Per Share ("EPS") excluding Special Items (as defined below);
- Effective Tax Rate excluding Special Items;
- Core Operating Profit. Core Operating Profit excludes Special Items and foreign currency translation ("F/X") and we use Core Operating Profit for the purposes of evaluating performance internally;
- Net Income, excluding Special Items;
- Company restaurant profit and Company restaurant margin as a percentage of sales (as defined below).

These non-GAAP measurements are not intended to replace the presentation of our financial results in accordance with GAAP. Rather, the Company believes that the presentation of these non-GAAP measurements provide additional information to investors to facilitate the comparison of past and present operations.

Special Items are not included in any of our Division segment results as the Company does not believe they are indicative of our ongoing operations due to their size and/or nature. Our chief operating decision maker does not consider the impact of Special Items when assessing segment performance. The Special Items are described in (a) - (d) in the accompanying notes.

Company restaurant profit is defined as Company sales less Company restaurant expenses, both of which appear on the face of our Condensed Consolidated Statements of Income. Company restaurant expenses include those expenses incurred directly by our Company-owned restaurants in generating Company sales, including cost of food and paper, cost of restaurant-level labor, rent, depreciation and amortization of restaurant-level assets and advertising expenses incurred by and on behalf of that Company restaurant. Company restaurant margin as a percentage of sales ("Company restaurant margin %") is defined as Company restaurant profit divided by Company sales. We use Company restaurant profit for the purposes of internally evaluating the performance of our Company-owned restaurants and we believe Company restaurant profit provides useful information to investors as to the profitability of our Company-owned restaurants. In calculating Company restaurant profit, the Company excludes revenues and expenses directly associated with our franchise operations as well as non-restaurant-level costs included in General and administrative expenses, some of which may support Company-owned restaurant operations. The Company also excludes restaurant-level asset impairment and closures expenses, which have historically not been significant, from the determination of Company restaurant profit as such expenses are not believed to be indicative of ongoing operations. Further, while we generally include depreciation and amortization of restaurant-level assets within Divisional Company restaurant expenses used to derive Divisional Company restaurant profit, we record amortization of reacquired franchise rights arising from acquisition accounting within Corporate and Unallocated Company restaurant expenses as such amortization is not believed to be indicative of ongoing Divisional results as well as to enhance the comparability of acquired stores' margins with those of existing restaurants. Company restaurant profit and Company restaurant margin % as presented may not be comparable to other similarly titled measures of other companies in the industry.

Certain non-GAAP measurements are presented excluding the impact of F/X. These amounts are derived by translating current year results at prior year average exchange rates. We believe the elimination of the F/X impact provides better year-to-year comparability without the distortion of foreign currency fluctuations.

Amounts presented as of and for the quarter ended March 31, 2026 are preliminary.

- (a) In 2025, we began a review of strategic options for the Pizza Hut brand. During the quarter ended March 31, 2026, we recorded charges of approximately \$37 million to Corporate and unallocated General and administrative expenses, which primarily included third-party advising costs associated with this strategic options review. Given the significance of the costs expected to be incurred through the course of this strategic options review, we have reflected such amounts as Special Items.
- (b) In the first quarter of 2025, we decided to designate two brand headquarters in the U.S., located in Plano, Texas and Irvine, California, to foster greater collaboration among brands and employees. This involved relocating the KFC U.S. corporate office to the KFC Global headquarters and requiring the majority of our U.S.-based remote employees to relocate to an appropriate headquarter office. We also decided to relocate our YUM Corporate headquarters to a new space in Louisville, Kentucky and accordingly, donated our existing space. Costs incurred to date primarily include severance for the employees who chose not to relocate and consultant fees. As a result of these decisions, we recorded charges of approximately \$1 million and \$7 million during the quarters ended March 31, 2026 and 2025, respectively, to Corporate and unallocated General and administrative expenses. Due to their scope and size, these charges have been reflected as Special Items.
- (c) During the quarter ended March 31, 2026, we received approximately \$44 million, net of legal expenses, related to a credit card interchange fee litigation settlement in which we were a plaintiff. This settlement was recorded to Unallocated Other (income) expense. Due to the nature and size of the settlement, including the years to which the litigation related, it has been reflected as a Special Item within Other income.
- (d) The below table includes the detail of Special Items Tax (Benefit) Expense:

	Quarter ended	
	3/31/26	3/31/25
Tax Expense (Benefit) on Special Items (Benefit) Expense - Operating Profit	\$ 2	\$ (7)
Tax Expense - Foreign tax reserve	—	92
Tax (Benefit) - Intra-entity transfers and valuations of intellectual property	(22)	—
Tax Expense - Other Income tax impacts recorded as Special	13	—
Special Items Tax (Benefit) Expense	\$ (8)	\$ 86

Tax Expense (Benefit) on Special Items (Benefit) Expense - Operating Profit was determined by assessing the tax impact of each individual component within Special Items based upon the nature of the item and jurisdictional tax law.

Tax (Benefit) - Intra-entity transfers and valuations of intellectual property in the quarter ended March 31, 2026, reflects the tax benefit resulting from an internal reorganization to consolidate the Pizza Hut entities and assets into two isolated ownership structures by aligning the legal ownership, simplifying the organizational footprint and consolidating the Pizza Hut domestic and international business. As part of this reorganization, certain Pizza Hut intellectual property ("IP") rights from subsidiaries in the U.S. were transferred to international subsidiaries resulting in a step-up in amortizable tax basis of those IP rights. This reorganization began in the fourth quarter of 2025 in connection with our Pizza Hut strategic options review.

Tax Expense - Other Income tax impacts recorded as Special in the quarter ended March 31, 2026, includes a \$13 million adjustment to tax expense associated with our decision to exit Russia. Previously recorded impacts associated with our decision to exit Russia were recorded as Special Items.

Tax Expense - Foreign tax reserve in the quarter ended March 31, 2025, is associated with a reserve, and the related ongoing foreign exchange and inflationary adjustments, associated with a change in management's judgment around a Mexican subsidiary's ability to utilize losses to offset recapture gains triggered by a historical tax deconsolidation in Mexico. This expense was reflected as a Special Item due to its size and the time elapsed since the years to which the reserve relates.
