

INVESTOR PRESENTATION

AUGUST 2025

PRESENTATION OF FINANCIAL MEASURES & FORWARD-LOOKING STATEMENTS

The financial information presented in this presentation includes non-GAAP financial measures such as Adjusted EBITDA, Segment Adjusted EBITDA and Adjusted net income per share, diluted to provide measures that we believe are useful to investors in evaluating the Company's performance. These non-GAAP financial measures are supplemental measures of the Company's performance that are neither required by, nor presented in accordance with GAAP. These financial measures should not be considered in isolation or as substitutes for GAAP financial measures such as net income or any other performance measures derived in accordance with GAAP. In addition, in the future, the Company may incur expenses or charges such as those added back to calculate these non-GAAP measures. The Company's presentation of these non-GAAP measures should not be construed as an inference that the Company's future results will be unaffected by similar amounts or other unusual or non-recurring items. Same club sales refers to year-over-year sales comparisons for the same club sales base of both corporate-owned and franchisee-owned clubs, which is calculated for a given period by including only sales from clubs that had sales in the comparable months of both years. We define the same club sales base to include those clubs that have been open and for which monthly membership dues have been billed for longer than 12 months. We measure same club sales based solely upon monthly dues billed to members of our corporate-owned and franchisee-owned clubs. The non-GAAP financial measures used in our long-term growth targets will differ from their most directly comparable GAAP measures in ways similar to those in reconciliations the Company has previously provided in its disclosure with the Securities and Exchange Commission (SEC). We do not provide a reconciliation of growth targets for Adjusted EBITDA or Adjusted net income per share, diluted to the most directly comparable GAAP measure because we are not able to predict with reasonable certainty the amount or nature of all items that will be included for the applicable period. Accordingly, a reconciliation of the Company's growth targets for these non-GAAP measures to the most directly comparable GAAP measure cannot be made available without unreasonable effort. These items are uncertain, depend on many factors and could have a material impact on our Adjusted EBITDA and Adjusted net income per share, diluted for the applicable period.

This presentation contains "forward-looking statements" within the meaning of the federal securities laws, which involve risks and uncertainties. Forward-looking statements include the Company's statements with respect to expected future performance presented under the heading "2025 Outlook," the Company's expected membership growth and club growth, share repurchases and the timing thereof, ability to deliver future shareholder value, and other statements, estimates and projections that do not relate solely to historical facts. Forward-looking statements can be identified by words such as "anticipate," "believe," "envision," "estimate," "expect," "intend," "may," "might," "goal," "plan," "prospect," "predict," "project," "target," "potential," "assumption," "will," "would," "could," "should," "continue," "ongoing," "contemplate," "future," "strategy" and similar references to future periods, although not all forward-looking statements include these identifying words. Forward-looking statements are not assurances of future performance. Instead, they are based only on the Company's current beliefs, expectations and assumptions regarding the future of the business, future plans and strategies, projections, anticipated events and trends, the economy and other future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict and many of which are outside of the Company's control. Actual results and financial condition may differ materially from those indicated in the forward-looking statements. Important factors that could cause our actual results to differ materially include competition in the fitness industry, the Company's and franchisees' ability to attract and retain members, the Company's and franchisees' ability to identify and secure suitable sites for new franchise clubs, changes in consumer demand, changes in equipment costs, the Company's ability to expand into new markets domestically and internationally, operating costs for the Company and franchisees generally, availability and cost of capital for franchisees, acquisition activity, developments and changes in laws and regulations, our substantial increased indebtedness as a result of our refinancing and securitization transactions and our ability to incur additional indebtedness or refinance that indebtedness in the future, our future financial performance and our ability to pay principal and interest on our indebtedness, our corporate structure and tax receivable agreements, failures, interruptions or security breaches of the Company's information system or technology, general economic conditions and the other factors described in the Company's annual report on Form 10-K for the year ended December 31, 2024 and the Company's quarterly report on Form 10-Q for the quarter ended June 30, 2025, as well as the Company's other filings with the Securities and Exchange Commission. In light of the significant risks and uncertainties inherent in forward-looking statements, investors should not place undue reliance on forward-looking statements, which reflect the Company's views only as of the date of this press release. Except as required by law, neither the Company nor any of its affiliates or representatives undertake any obligation to provide additional information or to correct or update any information set forth in this release, whether as a result of new information, future developments or otherwise.

FITNESS MARKET OVERVIEW

- 83% of the U.S. population and 58% of the global population live in urban areas, which is expected to increase to 89% and 69% by 2050, respectively.¹
- Between 2010 and 2019, the average apartment size in the U.S. shrank by 90 square feet², leaving less room for at-home fitness equipment
- Strength training with free weights catapulted to the #2 fitness trend globally in 2023, while the at-home exercise trend fell out of the top 10³
- The share of Americans that regularly engage in strength training grew by 10 percentage points from 1998 to 2018 but remains below 30%⁴

ENHANCING OUR MEMBER EXPERIENCE

The value we offer to our members goes well beyond the walls of a Planet Fitness

- Members can bring the Judgement Free Zone® anywhere with more than 500 digital workouts in the PF app
- Members receive exclusive discounts through our Perks program, with a total of \$10M in savings redeemed in 2024
- Standardizing our member feedback system across all clubs to enable faster responses to feedback and continuous improvements to the club experience.

#1 Most Downloaded Fitness App

REFINING OUR PRODUCT & OPTIMIZING OUR FORMAT

- Moving clubs to a more balanced footprint of cardio and strength equipment
- Nearly 100% of clubs will have additional strength equipment by end of 2025
- Option to remove 30-minute workout area to create space for more functional training

ACCELERATING NEW CLUB GROWTH

- Implemented two key initiatives in 2024 to enhance growth:
 - New Growth Model to help lower the cost of opening and operating a club
 - Increased monthly Classic Card price from \$10 to \$15
- On a path to accelerate growth to expand to 5,000 locations domestically

NEW GROWTH MODEL

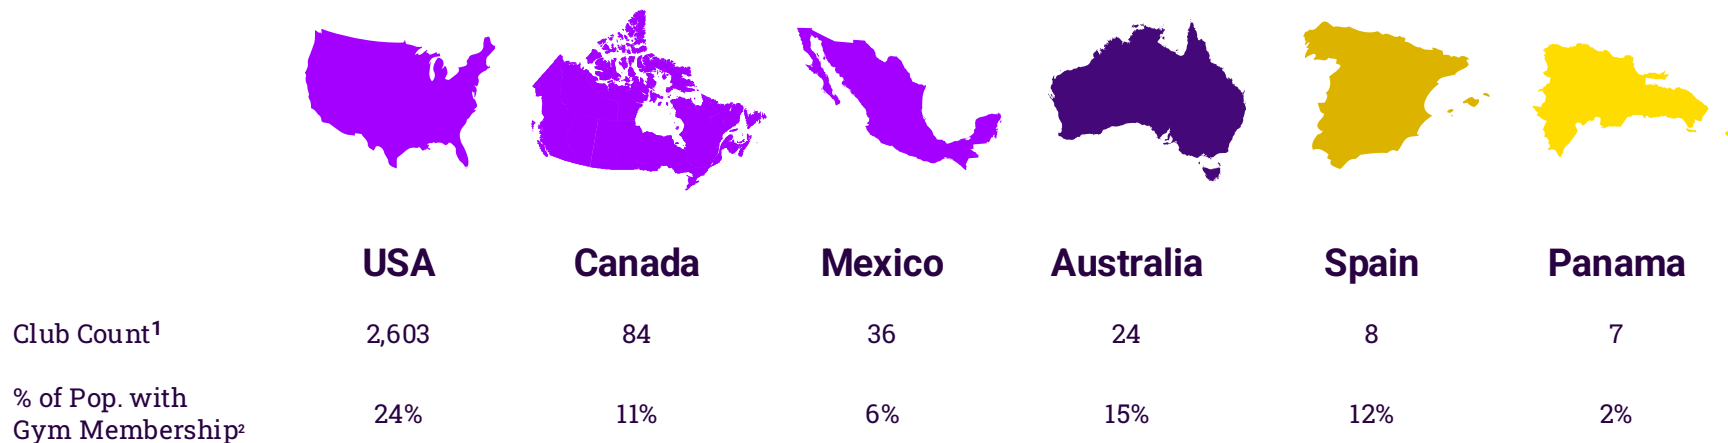

Focused on enhancing Planet Fitness's already strong new club economics and reducing capital requirements for opening and operating a Planet Fitness franchise location.
