Forward-Looking Statements

This presentation includes “forward-looking” statements within the meaning of securities laws, which are statements that are not historical facts, including statements that relate to our future financial performance and targets, including revenue, EPS, operating income, operation margin and earnings; operating leverage; our business operations; demand for our products and services, including bookings and backlog; capital deployment, including the amount and timing of our dividends, our share repurchase program, and our capital allocation strategy, including M&A activities and investments, if any; our projected free cash flow and usage of such cash; our available liquidity; our anticipated revenue growth, including growth in organic revenue; performance of the markets in which we operate; our foreign exchange rate outlook, our credit rating; our productivity and cost savings initiatives; our sustainability initiatives and our effective tax rate.

These forward-looking statements are based on our current expectations and are subject to risks and uncertainties, which may cause actual results to differ materially from our current expectations. Such factors include, but are not limited to, global economic conditions, including recessions and economic downturns, inflation, volatility in interest rates and foreign exchange; trade protection measures such as import or export restrictions, tariffs, modifications to trade agreements or quotas; changing energy prices; worldwide geopolitical conflict; including the Middle East conflicts; financial institution disruptions; climate change and our sustainability strategies and goals; future health care emergencies on our business, our suppliers and our customers; commodity shortages; price increases; government regulation; restructuring activity and cost savings associated with such activity; secular trends toward decarbonization, energy efficiency and internal air quality, the outcome of any litigation, including the risks and uncertainties associated with the Chapter 11 proceedings for our deconsolidated subsidiaries Aldrich Pump LLC and Murray Boiler LLC; cybersecurity risks; and tax audits and tax law changes and interpretations.

Additional factors that could cause such differences can be found in our Form 10-K for the year ended December 31, 2025, as well as our subsequent reports on Form 10-Q and other SEC filings. New risks and uncertainties arise from time to time, and it is impossible for us to predict these events and how they may affect the Company. We assume no obligation to update these forward-looking statements.

This presentation also includes non-GAAP financial information, which should be considered supplemental to, not a substitute for, or superior to, the financial measure calculated in accordance with GAAP. The definitions of our non-GAAP financial information are included as an appendix in our presentation and reconciliations can be found in our earnings releases for the relevant periods located on our website at www.tranetechnologies.com. Unless otherwise indicated, all data beyond the first quarter of 2026 are estimates.

First-Quarter 2026 Results

April 30, 2026

Continued Exceptional CHVAC Performance and Robust Services Growth. Record Bookings and Backlog Support Strong Growth in 2026 and Beyond. Raising FY Guidance

Strong Enterprise Performance in Q1

- Exceptional enterprise organic bookings*, up 24%; record backlog of \$10.7B, up over 30% versus year-end 2025
- Organic revenue* up 3%, led by Americas CHVAC and **double-digits global services growth**
- Adjusted EPS* up 7%

Exceptional Q1 Bookings and Backlog, Led by Commercial HVAC

- Americas CHVAC: record Q1 bookings, **up ~40% YOY**; **Applied bookings up over 160%**
- Combined Americas and EMEA CHVAC **backlog up \$2.7B** since Y/E 2025, with **Americas +~40% including ~\$1B Stellar Energy backlog**
- Global applied bookings up >100%; majority of backlog is applied equipment with higher-margin services tail

Operational Excellence

- Expect to mitigate tariff and inflationary pressures with robust strategies and proactive measures through our BOS

Well Positioned for Continued Growth in 2026 and beyond – Executing on the Controllables

- **High visibility for CHVAC** - exceptional bookings / record backlog support continued market outgrowth & revenue growth acceleration in 2H
- **Robust project pipeline** – strong and rapidly growing project pipelines across key verticals buoy confidence in long-term outlook
- **Consistent, durable services revenue growth over long term** – 1/3rd of enterprise revenues with low-teens CAGR since 2020
- **Resi market tailwinds in 2H** – better than expected Q1, 2H on improving market fundamentals / easier PY comps
- **Americas transport market recovery** – fundamentals continue to improve, strengthening outlook for late 2026 / 2027 market recovery

Best-in-Class Financial Position, Liquidity and Balance Sheet

- Strong balance sheet, liquidity and FCF* provide excellent optionality for balanced capital deployment

Raising FY 2026 Guidance:

- Expect organic revenue growth of ~+7%, at the high end of previous guidance range, and adjusted EPS of approximately \$14.75 to \$14.95, up from \$14.65 to \$14.85 prior. (see pages 9 & 16 for more detail)

FY 2026 Outlook Remains Strong. Record Bookings and Backlog to Support Continued Growth in 2026 and 2027

Americas	Commercial HVAC - Strong demand continues in data centers and core markets (higher education, government, healthcare) - Q1 Book-to-bill of ~150%, backlog up nearly 70% YOY, project pipeline remains robust - Expect to convert ~\$500M (~\$350M acquisition, ~\$150M organic) of Stellar Energy backlog in 2026; expect modest EPS accretion in year 1 with high levels of investments as we deploy our BOS - Expect ~10% rev growth in Q2, accelerating to low teens in the second half of the year Residential HVAC - Strong start to the year; Q2 performance will provide greater visibility for 2026 - Expect flat revs in Q2, with growth returning in the second half, aided by easier prior-year comparisons - Prudent outlook of flat revs for 2026. Outlook to remain fluid as year evolves Transport - TT forecast for transport markets remains unchanged, with an expected mid-single-digit decline for 2026 - Improving fundamentals support a market trough in the first half, with recovery expected in late 2026 / early 2027 - Expect TK to outperform end markets for FY; timing of large customer shipments may drive unevenness Qtr to Qtr
EMEA	EMEA Segment - Q1 results in line with expectations, excluding Middle East headwind of ~\$25M revs and ~\$0.02 EPS impact vs guidance; Middle East headwind is expected to continue in Q2, with a negative impact of \$50M in revs and ~\$0.05 EPS impact YOY - FY 2026 revs outlook modestly lowered to growth of +LSD Commercial HVAC - Strong underlying performance. Expect -MSD% y/y revs decline in Q2, +MSD revs growth FY 2026 Transport 2026 market expected to be down HSD. Expect TK to outperform through innovation-led, diversified, resilient portfolio
Asia Pacific	Commercial HVAC & Transport - China remains dynamic due to macroeconomic conditions - The rest of Asia is expected to perform more strongly than China in 2026 - FY 2026 revs outlook for the region remains flattish

Q1 Non-GAAP Measures Definitions

Adjusted operating income in 2026 is defined as GAAP operating income adjusted for merger and acquisition transaction costs, amortization of acquired backlog intangible asset and restructuring costs. Adjusted operating income in 2025 is defined as GAAP operating income adjusted for merger and acquisition transaction costs and a non-cash adjustment for contingent consideration. Please refer to the reconciliation of GAAP to non-GAAP measures on tables 2, 3 and 4 of the news release.

Adjusted operating margin is defined as the ratio of adjusted operating income divided by net revenues.

Adjusted earnings from continuing operations attributable to Trane Technologies plc (Adjusted net earnings) in 2026 is defined as GAAP earnings from continuing operations attributable to Trane Technologies plc adjusted for net of tax impacts of merger and acquisition transaction costs, amortization of acquired backlog intangible asset, a non-cash gain from acquisition of a previously held investment and restructuring costs. Adjusted net earnings in 2025 is defined as GAAP earnings from continuing operations attributable to Trane Technologies plc adjusted for net of tax impacts of merger and acquisition transaction costs and a non-cash adjustment for contingent consideration. Please refer to the reconciliation of GAAP to non-GAAP measures on tables 2 and 3 of the news release.

Adjusted continuing EPS in 2026 is defined as GAAP continuing operations attributable to Trane Technologies plc adjusted for net of tax impacts of merger and acquisition transaction costs, amortization of acquired backlog intangible asset, a non-cash gain from acquisition of a previously held investment and restructuring costs. Adjusted continuing EPS in 2025 is defined as GAAP continuing operations attributable to Trane Technologies plc adjusted for net of tax impacts of merger and acquisition transaction costs and a non-cash adjustment for contingent consideration. Please refer to the reconciliation of GAAP to non-GAAP measures on tables 2 and 3 of the news release.

Adjusted EBITDA in 2026 is defined as adjusted operating income excluding depreciation and amortization expense and including other income / (expense), net, excluding a non-cash gain from acquisition of a previously held investment. Adjusted EBITDA in 2025 is defined as adjusted operating income excluding depreciation and amortization expense and including other income / (expense), net. Other income / (expense), net mainly comprises interest income, foreign currency exchange gains and losses and certain components of pension and postretirement benefit costs. Please refer to the reconciliation of GAAP to non-GAAP measures on tables 4 and 5 of the news release.

Adjusted EBITDA margin is defined as the ratio of adjusted EBITDA divided by net revenues

Note: Information as of April 30, 2026--- NOT AN UPDATE OR REAFFIRMATION

Q1 Non-GAAP Measures Definitions

Adjusted effective tax rate for 2026 is defined as the ratio of income tax expense adjusted for the net tax effect of adjustments for merger and acquisition transaction costs, amortization of acquired backlog intangible asset and restructuring costs divided by adjusted net earnings. Adjusted effective tax rate for 2025 is defined as the ratio of income tax expense adjusted for merger and acquisition transaction costs divided by adjusted net earnings. This measure allows for a direct comparison of the effective tax rate between periods.

Free cash flow in 2026 is defined as net cash provided by (used in) continuing operating activities adjusted for capital expenditures, cash payments for restructuring costs and merger and acquisition transaction costs. Free cash flow in 2025 is defined as net cash provided by (used in) continuing operating activities adjusted for capital expenditures, cash payments for restructuring costs, legacy legal liability, and merger and acquisition transaction costs. Please refer to the free cash flow reconciliation on table 8 of the news release.

- **Free cash flow conversion** is defined as the ratio of free cash flow divided by adjusted net earnings

Operating leverage is defined as the ratio of the change in adjusted operating income for the current period (e.g. Q1 2026) less the prior period (e.g. Q1 2025), divided by the change in net revenues for the current period less the prior period.

Organic revenue is defined as GAAP net revenues adjusted for the impact of currency and acquisitions.

Organic bookings is defined as reported orders in the current period adjusted for the impact of currency and acquisitions.

Working capital measures a firm's operating liquidity position and its overall effectiveness in managing the enterprise's current accounts.

- **Working capital** is calculated by adding net accounts and notes receivables and inventories and subtracting total current liabilities that exclude short-term debt, dividend payable and income tax payables.
- **Working capital as a percent of revenue** is calculated by dividing the working capital balance (e.g. as of March 31) by the annualized revenue for the period (e.g. reported revenues for the three months ended March 31 multiplied by 4 to annualize for a full year).
