# Computerworld Names Amedisys to 2023 List of Best Places to Work in IT

12/20/2022

BATON ROUGE, La., Dec. 20, 2022 (GLOBE NEWSWIRE) -- Foundry's Computerworld recently named Amedisys, Inc. (NASDAQ: AMED) one of the nation's leading home health, hospice, personal and high-acuity care companies, to their 2023 listing of the Best Places to Work in IT. This award recognizes the top organizations that challenge their IT staffs while providing great benefits and compensation. Organizations will be included in coverage on **Computerworld.com** along with results from the 2023 Best Places to Work in IT survey.

The annual ranking recognizes the top 100 work environments for technology professionals. Specifically, it "showcases the organizations that excel at keeping their employees engaged and loyal with compensation, training and access to hot technologies."

Amedisys ranks 34th among large organizations in this year's listing. The list is compiled based on a comprehensive questionnaire regarding company offerings in categories such as benefits, career development, training and retention. In addition, IDG conducts extensive surveys of IT workers, and their responses factor heavily in determining the rankings.

"It is a privilege to work for a company that not only values innovation and technology, but one that also values the individual employee," said Chief Information Officer Mike North. "I am proud to lead such a talented group of IT professionals who offer their expertise and innovation every day to ensure that our people have the best user experience possible, so they can focus on patient care."
